REFORMED MAN DIVULGES THEFT

Former Convict, Confidant of Victor Ellerman, Who is Serving Sentence, Writes Prosecutor.

WHITE LEAD IS RECOVERED

Found Buried on Knecht Farm as Ellerman Had Confided to Friend—Parole Goes Glimmering.

Prosecutor Stevens today recovered 700 pounds of white lead from the premises previously occupied by Victor Ellerman, who is now serving a two to fourteen year sentence or a grand larceny charge, in connection with the theft of linseed oil from William Knecht.

Prosecutor Stevens received a letter from a man who signed himself a "Reformed Man," who was in prison with Ellerman and who became intimately acquainted with him. The letter contained the information about the stolen lead that was buried on the Knecht farm, north of here, and this afternoon it was unearthed and taken to the Pinnell-Tompkins Lumber company, from which place Ellerman had stolen it several weeks before he was arrested. It was valued at \$96.

The letter also discloses some startling facts in the way of threats, and will most likely mean that Ellerman will be compelled to serve out his entire 14 years, as the letter will be sent to the State Board of Pardons as proof of the undeserving pardon.

The letter in part is as follows:

"I am writing you these few lines on behalf of the neighbors in your county. I done time in Michigan City and I learnt a great lesson there. I worked in the dining room there with Victor Ellerman who was sent up from your town. He goes up for parole the last Friday in October and I thought it my duty to let you know he is going to burn the man's house that had him arrested and he swears he is going to burn the house of the man that he claims is the father of the little boy he chased from home and he also says he has 700 pounds of white lead buried in the old barn where he lived that he stole from a lumber company in Rushville.

"That boy is crazy and full of the devil with it. He laughs of how he burnt his own house to get the insurance and how he used to steal hogs and chickens in that neighborhood. Now it is up to you and the judge whether you want him back in your community, or let him stay till he gets that stuff out of his head."

The letter continued to say that Ellerman had sworn vengeance on the people mentioned above. The man who signed the affidavit was William Knecht, and he is the person referred to about burning his house.

"The Reformed Man" also tells Prosecutor Stevens the following: "He says you people are all afraid of him. He said you had him locked up over some trouble with his small step daughter, but you was not smart enough to convict him".

Ellerman, it will be recalled, caused Sheriff Jones some anxiety when on the morning of his departure for the prison, he ran away as the car pulled into the station, but he was later captured by the sheriff of Shelby county and returned here.

Prosecutor Stevens stated that his chances for a pardon would no doubt be small, when the facts in this letter will be presented.

SPIEGLAND INDICTMENTS

Newcastle, Ind., Oct. 23—Arrests in connection with the robbery of the Spieglan Bank on February 26 are expected soon on warrants issued on an indictment returned late yesterday after a day of investigation by the grand jury. The indictment was returned in open court and the warrants immediately issued.

ONE LICENSE IS ISSUED

A marriage license was issued this morning to Henry Fink a moulder of Ohio and Mrs. Letitia Orman, daughter of Mrs. Peter Conolly of this city.

WEATHER

Fair tonight; Saturday cooler, unsettled.

MASSEY IS OUT OF JAIL

Connersville Man Allowed to go on His Own Recognizance

Everett Massey, who has been in jail several days on account of his bondsmen filing a petition to withdraw from his bond, was released from the jail this morning on his own recognizance, and will be allowed to return to his work in a garage at Connersville. Massey is held on a charge of being an accessory before the fact, and was implicated by members of the Demaree gang. He was said to be the person who drove an automobile on the night that the hardware store in Carthage was robbed. His bond was placed last March at \$1,000 and several men went on the bond, but asked to be released stating that they had been informed that the defendant was preparing to leave Connersville. He is also the son of Mrs. Frank Hasher of this city.

ANDERSON FARMERS HOLD ANNUAL MEET

Officers in Most Instances Are Re-elected For Another Year—New Members are Added

200 ATTEND THE BANQUET

The farmers of the Anderson Township Association held their annual meeting last night in the school building at Milroy, at which time officers for the ensuing year were elected, and the members and their families had a pitch-in-dinner in honor of the annual event.

W. B. Crane was re-elected president, as was Ray Selby for vice president. Virgil Henry was elected secretary-treasurer succeeding Clyde Archey. Clifford Power was also re-elected as a director in the county organization, representing the Anderson township association.

One of the largest and most enthusiastic meetings of the organization was reported last night, and approximately 200 people were served at the pitch-in-dinner, which followed the business hour. Several new members of the township organization were also reported and several minor business affairs were taken care of.

A discussion was held regarding the Memorial building petition filed by the American Legion, but no vote was taken, as it was decided to let this remain over until another meeting.

The membership drive was started with a meeting by the Walker township association last night and a vote on the Memorial Hall petition showed a majority against it. Dr. Fred H. Finlaw of Arlington, ex-service men, spoke for the petition and Ed Lowden spoke against it.

BRITISH RAILWAY STRIKE POSTPONED

Sympathetic Walkout Scheduled For Midnight Sunday Called Off at Request of Miners.

PREMIER TO MEET MINERS

(By United Press)

London, Oct. 23—The nation-wide railway strike scheduled to start at midnight Sunday as a sympathetic demonstration with the miners' walkout was postponed this evening.

Representatives of the striking miners asked the railway workers to suspend the strike. The report was made at a joint conference of miners and the railway men's executive board, it was understood.

The reason assigned by the miners for their request was that Lloyd George had invited them to participate in a conference to attempt a settlement of the strike and they did not wish to be embarrassed with their negotiations by threats of a railway strike.

The Misses Edna Krammes, Libby Sehatz and Marie Perkins were theater-goers in Indianapolis today.

TRIO ADMIT GUILT IN CIRCUIT COURT

Sentence Withheld by Judge Sparks in Cases of Clevenger, Manuel and Jones

BONDS ARE FIXED AT \$500

Court Wishes to Investigate Former Conduct—More Loot Found at Clevenger Home

Charley Clevenger, age 24; Lawrence Manuel, age 22; and Ross Jones, age 20, the trio who were arrested yesterday on charges of larceny in connection with the opening of express shipments, each entered a plea of guilty this morning before Judge Sparks in circuit court, and judgment was withheld pending an investigation by the court.

All three of the young men were employees of the American Railway Express company, and were under suspicion for several months by detectives, when local merchants reported articles missing from express shipments.

The arrests were made by Detectives W. T. Crosby and Thomas B. Birk, who have been working on the case for some time. Sufficient evidence was obtained yesterday to warrant the charges, and after considerable questioning by the detectives, the three men made confessions concerning petty thieving.

The detectives stated that they have a signed statement from Manuel, to the effect that the trio had engaged in the illicit sale of whiskey, that the goods were obtained in Hamilton for \$12.50 a quart and brought here and sold for \$20 a quart.

When the raid was conducted at Jones residence yesterday one quart was found, and from reliable sources it was learned that 20 quarts were removed from the residence shortly before the officers conducted their search.

Jones also recently purchased an automobile, which was paid for in full, according to one who saw the receipt bill of sale.

Additional evidence was found last night by the detectives at the Clevenger home. A rifle, valued at \$38 was found, which was a part of a shipment consigned to John B. Morris in this city.

At this same residence, the detectives said they found a valuable suit of clothes, valued at \$38, which was also a part of a shipment consigned to J. L. Cowing, Son and Company. Several other thefts that were unearthened by the detectives were mentioned in the Daily Republican last evening.

All three were arrested yesterday on charges filed in Squire Stech's court, charging petit larceny. Prosecutor Stevens later in the day transferred the charges to the circuit court, where they were charged to grand larceny in the case of

Just Like Folding Tablecloth. Local Woman's Idea of Voting

Emphasizes Necessity of New Voters Experimenting With Ballot in Booth Which is Only 31 Inches Square and Has Board in it for Writing Only 10 Inches Wide

"Just like folding a tablecloth", remarked a Rushville woman the other day while she was experimenting with a sample ballot at her home.

This is the experience that every new voter will have. The ballots are so large and bulky that every woman will find it difficult to fold one properly if she does not get some practice before election day.

This is the reason Fon Riggs, republican county chairman, and Mrs. A. L. Stewart, chairman of the women's organization, are urging that the new voters call at republican headquarters in Second street to get some instructions. Headquarters may be reached by climbing the second stairway west of Main street on the south side of Second.

It is pointed out by persons who

ORDERS OPERATORS TO PRODUCE COAL

State Commission Fixes Amount Each One Shall Deliver For Indiana Consumption

AT THE SPECIFIED PRICE

Weekly Reports to Commission Will be Required—Due to Shipping Outside State

Indianapolis, Ind., Oct. 23—The state special coal and food commission today issued an order directing every coal mine operator in the state to produce a given amount of coal each week for sale within Indiana and sell it at prices specified by the commission.

Under the order, the average monthly consumption in Indiana is 1,600,000 tons of coal and this was divided among 225 mine operators, according to their producing capacity. The division ranges from 50 net tons to 3,500 net tons a week.

The commission further ordered that the "persons, firms or corporations named" shall make weekly reports to the commission, the first of which was due today.

The prices are the same as those heretofore and range from \$2.80 to \$5.55 a ton at the mouth of the mines.

The commission's order resulted from friction with the mine owners in shipping their product outside the state to escape provisions of the recent price fixing order.

Anticipating possible court action against the order, Chairman Jesse Eschbach issued a statement in which he said:

"There is no reason why a large part of one class of our citizens may willfully disobey the law of the land while others must yield in strict obedience thereto.

"It is now up to the retailer and other consumers to get their orders under the operators hands so that when the operators offer for sale in this state the coal specified, there will be buyers for it.

"In order to avoid confusion on the placing of too many orders with some operators and too few with others, the commission has suggested to the different retailers the operators with whom they should at once place orders for coal and we have endeavored to arrange the suggestion in such a manner as to send orders to all mines in proportion to the amount which we have required they offer for sale in Indiana.

"We believe the increased freight rates would result in a very marked increase of the consumption of Indiana coal within the state. We are urging retailers everywhere to increase the market for Indiana coal in their communities and this movement we hope to aid in every possible way.

"Under the law operators refuse

FARMERS ELECT DELEGATES

Three Are Picked at Meeting Today to Attend State Convention.

A small delegation of the members of the Rush County Farmers' association met here this afternoon for the purpose of electing three delegates to the state convention which will be held in Indianapolis on November 15 and 16. The delegates chosen were Ed Chambers, Harry McMillin and Harold Beal, and their respective alternates are A. L. Gary, Will Brown and John Davis. Because the membership may reach 1750 before the convention, an extra delegate was selected who will attend if the membership reaches that number. Fred Bell was elected as the fourth delegate and Elmer Hutchinson, as his alternate. Each county is allowed one delegate for each 500 members, and the present membership is between 1500 and 1600.

ACCIDENT WILL CAUSE FOOT TO BE AMPUTATED

Mrs. Grover Thompson Will Undergo Operation Here Monday as Result of Mishap Sept. 28

BUGGY WAS TURNED OVER

Mrs. Grover Thompson of near Milroy will undergo an operation Monday morning at the Dr. Sexton hospital for the amputation of her right foot at the ankle, as a result of an accident which she sustained September 28, when the buggy in which she was riding was struck by a passing automobile north of Milroy, causing her to be thrown out of the vehicle breaking her ankle bone, which penetrated the flesh for six inches.

Since that time Mrs. Thompson has been in the hospital here suffering from an infected bone, and the attending physicians deemed it necessary to amputate the foot. At the time of the accident it was stated she would be a permanent cripple.

It will be recalled that Mrs. Thompson and her mother, Mrs. James Snoddy, were driving their horse and buggy along the road between here and Milroy, when an automobile built to resemble a house, came along the road, and in attempting to pass, skidded in the gravel and struck the buggy.

FINAL ARRANGEMENTS ARE MADE FOR TOUR

Two Bands and Four Drum Corps to Accompany Republicans in Swing Around County

FIVE SPEAKERS IN PARTY.

The final arrangements for the republican tour of the county were made today and it is very evident and sure that it will be one of the most successful and extensive since such have been the custom in politics. There will be two bands and four drum corps accompany the delegation, starting from Rushville at 8:30 a. m., Tuesday morning, October 28.

The speakers who have been obtained are ones with reputations as campaign orators and well known to Rush county people, R. N. Elliott, the present congressman from the sixth district; Arthur R. Robinson, candidate four years ago in Indiana, for United States senator; George M. Barnard, Thomas E. Davidson, and Rollin H. Turner, all excellent speakers. Dinner will be plentiful at Arlington for all those taking the west tour from Milroy, and at Falmouth it will be provided by the ladies of the M. E. church for those taking the east tour. The grand rally at Carthage in the afternoon will be the biggest rally in the league of nations.

The following schedule has been arranged for these meetings by Mrs. A. L. Stewart, the head of the women's organization:

Monday, Oct. 25—2:30 p. m.

Mavs.

Monday, Oct. 25—7:30 p. m.

Milroy.

Tuesday, Oct. 26—7:00 p. m.

The Law of The Yukon

Film fans will be lured to the Princess Theater tonight when Charles Miller's "The Law of the Yukon", based on Robert W. Service's famous poem of the same name and presented by Mayflower Photoplay Corporation, will be the principal feature of the bill.

"The Law of the Yukon" portrays the motives and passions of men and women who are drawn to that frigid region by the lure of gold; their intense manner of living; how they work hard and play equally hard; their deep loves and deep hates; their sense of fair play and rigid justice.

The love appeal is tense and gripping and is as crisp and invigorating as the air of the far north country.

Big Feature at Mystic

"The Unpardonable Sin," which is to be presented at the Mystic theatre for a two days engagement beginning Monday is a moving picture attraction which Rushville people who have followed the development of the screen as a medium for the presentation of really big dramatic ideas cannot afford to miss. There have been many unqualified expressions of opinion to the effect that "The Unpardonable Sin" is the greatest photoplay ever produced, and there is no denial of the statements that it ranks with such attractions as "The Birth of a Nation," "Intolerance" and "Hearts of the World," all of which are outstanding successes in the realm of moving pictures.

The story is by Major Robert Hughes and it first appeared in serial form in the Red Book. The complete book was published not long after and at once established itself as a "best seller." While dealing with subject matter related to the recent world war, the picture is in no sense a "war picture," being entirely devoid of battle scenes, etc. The tale is merely one of love and adventure, written in the style which Rupert Hughes, better than any other living American author, knows how to use. Blanche Sweet appears as a winsome American girl, possessed not only of girlish charm, but also of the nerve, temper and aggressiveness which is characteristic of the modern American girl.

Matt Moore is just a plain, everyday American lad of the type that may be met anywhere in the United States. The obstacles these two surmount in their efforts to pen-

trate a hostile country in search of two defenseless women upon whom has been perpetrated "the unpardonable sin" are pictured to provide a screen story that keeps audiences

everywhere on the very edge of their seats.

"The Solid South"

It is doubtful if any other independent country in the world possesses a section which is always of one political faith, such as is "The Solid South". It never changes its political complexion. Ever since the Civil war days, the southern states have always been democratic. Sometimes a republican congressman or two emerge from one of the southern states, Virginia, Kentucky or Tennessee, and occasionally one of these states elect a republican governor, as in the present gubernatorial administration in Kentucky but with these exceptions the "Solid South" is always democratic.

This section supplies to the senate 32 senators and at present more than one hundred members of the house of representatives. In every presidential election its electoral votes are always counted for the democratic nominee.

In fact, if the democratic party could not always depend on the "Solid South" in presidential elections the chances of any democratic candidate for president being victorious would be exceedingly slim. It is the south that wins whenever a democratic president wins in the electoral College.

Similarly, when congress is democratic it is the "block" of democratic senators and representatives from the south that constitute the majority of democratic control in house and senate, and very naturally under such circumstances the members of congress from the southern states are the dominating and controlling power in all legislation in a democratic congress.

When the democrats are in control of congress they manage all legislation by the caucus system, in house and senate. In a senate or house democratic caucus the senators or representatives from the sixteen southern states always vote together on almost all legislative measures, and on all congressional policies. The interests of each of the sixteen southern states are identical in legislation and government, and as the men in congress from this section nearly always constitute a majority of the democrats of any congress that is democratic, the men from this section control all caucuses and legislative action.

This condition has existed in con-

gress for many years, when the national legislature happened to be democratic. "The Solid South" dominated the house and senate and enacted legislation. In a great many instances, for the benefit only of the south. An example of this was seen in the last "war congress", which was democratic and which fixed a government price on wheat, but refused to fix a government price on cotton. Practically no cotton is produced outside of the southern states.

As the southern democrats absolutely dominate congress when that party controls congress it follows that it is a waste of time and an idle proceeding for states of the west, mid-west, and north to elect democratic senators or representatives. These democrats from the other three great sections of the country, as congress when democratic is dominated by the men from the south, have very little to say and hardly any voice at all in shaping national legislation or the congressional policies. The democratic "block" from the south votes solidly in the democratic caucus, and the democratic congressmen from other sections of the country are practically ignored, unless they subscribe blindly to the demands of the southern members.

A vote for a democratic senator or representative in November is only a vote toward perpetuating southern rule in congress, should the next congress be democratic.

It does not seem reasonable that

Off Again, On Again

THINK OF THIS.
Say, bo, just getting down to facts,
Our job as jester scorning,
Has anyone, by your kind acts,
Been gladder since this morning?
* * *

Settlers.

Settlers are divided into many kinds.

Among those who have done a great service to mankind in the classification of settlers are Dun and Bradstreet and the Credit Men's association.

Some people are proud to be called "early settlers," but many of the early settlers in one place did so because they were such late and reluctant settlers somewhere else.

Shakespeare said: "The evil that men do lives after them."

But the people that men do run after them, send after them, and do other disagreeable things like that.

One hears now and then of an "old settlers' picnic."

But if some one were foolish enough to try to organize a "prompt settlers' picnic," it would be rank failure.

There wouldn't be enough persons there for a quorum.

The only people you can converse freely with on the subject of settling is the man you owe.

The man who owes you is strangely reticent and sensitive on the subject, and will even rudely walk away if you persist in referring to those disagreeable things.

The average old settler, if you have the dots on him, will stick fairly close to the actual year he moved into the community.

But if you haven't got him tagged, he'll stretch it at least fifteen years.

The inducers to colonization are always begging people to come there and settle.

Their pleading usually gets those that the former neighborhood pleads with to stay where they are and settle.

FINNIGAN FILOSOFY

Most min whin they have turned a thrade sa-ay: "Good-bye, bra-aains! I won't ever nade yez any more! I now hiv a thrade!" An' people that hires thim fr a job notices ut right awa-ay.

* * *

I Can't Be Done.

The young Puritan lad who had been put in the stocks for playing seven-up in the haymow, muttered to himself:

"They talk about 'dealing in stocks'! Deal nothin'! Why a feller couldn't even shuffle 'em, let alone deal, with his hands fastened up this way!"

This condition has existed in con-

gress for many years, when the national legislature happened to be democratic. "The Solid South" dominated the house and senate and enacted legislation. In a great many instances, for the benefit only of the south. An example of this was seen in the last "war congress", which was democratic and which fixed a government price on wheat, but refused to fix a government price on cotton. Practically no cotton is produced outside of the southern states.

As the southern democrats absolutely dominate congress when that party controls congress it follows that it is a waste of time and an idle proceeding for states of the west, mid-west, and north to elect democratic senators or representatives. These democrats from the other three great sections of the country, as congress when democratic is dominated by the men from the south, have very little to say and hardly any voice at all in shaping national legislation or the congressional policies. The democratic "block" from the south votes solidly in the democratic caucus, and the democratic congressmen from other sections of the country are practically ignored, unless they subscribe blindly to the demands of the southern members.

A vote for a democratic senator or representative in November is only a vote toward perpetuating southern rule in congress, should the next congress be democratic.

It does not seem reasonable that

GIANT REPUBLICAN COUNTY RALLY

Big Tour of All Towns in Rush County by Automobile

OCTOBER, 26th, 1920

GATHER AT RUSHVILLE AT 8:30 A. M.

SPEAKERS

Con. R. N. Elliott, Geo. M. Barnard,
Arthur Robinson, T. E. Davidson, R.
H. Turner, and Some Lady Speakers

Bands and Drum Corps will accompany the tour and the route will be

Milroy	9:00 A. M.	Moscow	9:45 A. M.
Richland	9:45 A. M.	Gowdy	10:30 A. M.
New Salem	10:30 A. M.	Manilla	11:00 A. M.
Glenwood	11:30 A. M.	Homer	11:45 A. M.
Falmouth	12:30 P. M.	Arlington	12:30 P. M.
Raleigh	1:30 P. M.	Carthage	3:00 P. M.
Mays	2:00 P. M.		
	3:00 P. M.		

Caravan will divide at Milroy, going on each side of county and all will meet at Carthage at 3:00 P. M. in final rally. All Republicans are urged to go and take and decorate cars. Dinner served at Falmouth and Arlington.

COMMITTEE

do carry the district and are most certainly likely to this year.

Men of the sporting fraternity evidently think that Cox hasn't a ghost to one that Harding will be elected.

One of the very good reasons for being opposed to the Wilson league of nations is that so many of the college presidents and professors are for it.

One comparison of the respective proportions of the south and the remainder of the country will suffice. In 1917 all the people paid in internal federal taxes more than three and a half billion dollars. Of this sum less than half a billion came from the southern states. In that year nearly three billions income and excess profits taxes were paid by the whole country. The south contributed of this not quite three hundred millions. The proportions for the years following are about the same. A parallel between the once dominating position of Prussia in Germany and the south in the United States, whenever the democrats are in power, could be plainly drawn.

Do the people of the other sections of the country desire to vote in November to return the "Solid South" to the saddle?

It's a safer wager that when a man insists that the Memorial Hall question should be decided at an election, he is against it and hasn't the courage to say so except behind the protection of a voting booth with a pencil.

Bill Blodgett says that there is some uneasiness among the republicans in the sixth district and then ghost of a show when they offer proceeds to show by election statistics that the republicans generally

STEEL COMPANIES ASK FURTHER ADJUSTMENTS

E. H. Gary Seeks Changes in a Plea
Made Before the American Iron
Institute

MINES ARE UNABLE TO SUPPLY

New York, Oct. 23—Further ad-
justments of steel prices must be
made, E. H. Gary, chairman of the
board of directors of the United
States Steel company, told the Amer-
ican Iron and Steel institute here
Friday.

Gary said a considerable reduc-
tion in certain prices and a decrease
in certain lines of industries were a
helpful condition.

"All mines have been unable to
supply the demands of the company
as to quantity and delivery and our
prices considered as a whole have
resulted in profit", Gary said.

"As a matter of course, some ad-

justment will have to be made. Without referring to individual cases, I believe in many instances outrageous big profits have been made. This observance applies more especially to the middlemen and to the smaller industries. It also includes employees of certain trades but does not extend to the mass of workmen.

The labor question is always under consideration in this country and others. It should be constantly borne in mind in order to secure the best results, mutual confidence and friendly cooperation are essential.

BANKERS WANT REPEAL OF EXCESS PROFIT TAX

Pass Resolution Requesting Change
Also in Surtax Rate and Consider
Other Things

MAKE REQUEST OF LABOR

Washington, D. C. Oct. 23—Im-
mediate repeal of the excess profits
tax and the revision of the surtax
rate were demanded in a resolution
adopted at the closing session of
the American Banker's Association
convention Friday afternoon.

The excess profit tax was decided
as unsuccessful and inequitable and
the surtax rates has a breaking-up
achievement.

The convention recommended that
revision be undertaken by congress
with the help of an advisory com-
mittee of bankers and business men.

Labor was "called on to abandon
the economical fallacy", that the
curtailment of output will improve
the conditions since only through
measures of reduction can wealth
be evenly distributed.

Immigration should be encour-
aged, the resolution said, but cau-
tion should be used as to the char-
acter of the immigrant admitted.

LARGE CROWDS HEAR WATSON AND M'CRAY

Republican Nominees For Senator
And Governor Speak at Rock-
port Friday Afternoon

BEST OF CAMPAIGN THERE

Rockport, Ind., Oct. 23.—Four
thousand people, composing one of
the greatest crowds that ever greet-
ed a candidate in this county, heard
Warren T. M'Cray and Senator
James E. Watson speak here Friday
afternoon. The crowd was so large
that the meeting, which was to
have been held in the new Spencer
county court house, was transferred
to local garage.

M'Cray was enthusiastically
cheered when he was introduced by
W. C. Mason as the "next governor
of Indiana."

The gubernatorial candidate be-
gan by saying that he believes in
profiting by the experience of others
and that if elected he will surround
himself with trained, capable
men to assist in the proper hand-
ling of the affairs of the state. He
pledged himself to a policy of ap-
pointing on boards and commissions
in charge of all different branches
of state business only practical men
especially fitted for their respective
places.

He also said that he believes that
the control of tax levies and bond
issues should be in the hands of lo-
cal taxing units in order that the
right of self determination on local
tax government by the various coun-
ties, townships and municipalities
of the state may at all times be
preserved. He pledged himself to
give the people a sound constructive
business administration. Some
changes should be made in the road
laws, he said and these matters will
be given early attention when he is
elected.

CENTER FIXES PROGRAM

Farmers Association Arranges For
Meeting Tuesday Night

The Center Township Farmers'
association will meet Tuesday night
at Mays in the hall, at which time
they will hold their monthly meet-
ing. The program prepared for the
evenings entertainment will con-
sist of addresses by Fred Bell, Howard
Erbank and Donald Ball. Miss
Lavanga Sears and Miss Marjorie
Wiltrot of Indianapolis will render
a duet, and there will be readings
by Mrs. Claude Martin of Rushville.
A quartet of Rushville men will also
furnish several selections. Will
Newbold, Joe and Fred Guido and
Francis Moorman will be on the
quartet.

FORGERY CHARGE IS MADE

Democratic Chairman Charges False
Registration in Indianapolis

Indianapolis, Ind., Oct. 23.—A
suit to purge the registration re-
cords of many alleged irregular, un-
lawful and forged registration ap-
plications in fifteen voting precincts
of the city of Indianapolis was filed
in the superior court here today by
the state on relation of Reginald
Sullivan, democratic county chair-
man.

The complaint states that more
than 600 alleged "irregular, unlaw-
ful or false, forged or fraudulent
registrations were placed on the re-
gistration books of the first pre-
cinct of the fifth ward".

TWO ADMIT GUILT IN CIRCUIT COURT

Continued from Page One
Clevenger, but petit larceny in the
case against Jones and Manuel.

The charges also include thefts
of candy and fruit, as well as wearing
apparel.

After each had entered a plea of

guilty, Judge Sparks placed their
bond at \$500 each, and stated that
he would not pass sentence upon
them for a few days, as he wished to
investigate the former conduct of
the men.

Clevenger provided bond, when
Fred Clevenger appeared for that
purpose. Manuel came here from
Westport, he told Judge Sparks.
Jones lives with his step mother in
West Tenth Street. His father, Al-
va Jones, was sentenced two weeks
ago to the state prison on a serious
charge.

Old Age and Glasses

The gradual decrease of
ocular power which accom-
panies age should not be
considered contrary to na-
ture any more than it is for
the hair to turn gray, the
teeth to become defective or
the muscles to weaken.

Besides, as age advances,
the other physical faculties
are apt to be used less and
less, and the eyes more and
more.

Artificial aid is therefore
to be expected and should
always be resorted to at the
first indication of failing
eyesight. Call and let us fit
you with the glasses your
eyes require.

SMOKE WINGERTER'S FAIR PROMISE CIGAR

SOCIETY

The Tri Kappa sorority will meet Monday evening at the home of Mrs. Harry Osborne in North Harrison street. All members are urged to be present.

The Loyal Daughters of the Main Street Christian church will be entertained next Tuesday evening at the home of Mrs. John Thompson in East Seventh street with a masked social. Each member is requested to come masked.

The G. G. club, including the Misses Jean Herkless, Emily Mauzy, Jessie Allen, Louise Pitman, Mildred Boyce, Estella Poston and Florine Walton have issued invitations for a Hallowe'en party Saturday October 30, at the home of Miss Walton in East Ninth street.

A very pretty announcement party was given by Mrs. Ralph Hester at her home near Manilla Thursday evening. The party was given in honor of her sister Miss Geraldine Phares, who will be married soon to George B. John. The home was beautifully decorated for the occasion in autumn leaves and chrysanthemums. A delicious six o'clock course dinner was served, the place card announcing the engagement of Miss Phares and Mr. John. The guests were the Misses Inez Westerfield, Lucille Solomon, Mildred Heter, Ila Towns, Irene Fair, Carrie John, Pauline Towns and Julia John. The wedding will take place October 27.

The Rebekah Lodge held a business meeting and social last evening in their lodge rooms in West Second street. During the business session a report was given of the district convention at Waldron and nomination of officers took place. Preceding the business session a delicious pitch-in supper was served to about sixty guests. During the social hour at the close of the meeting the guests were delightfully entertained with games and music. For the next meeting an invitation has been extended to the district president and the Rebekah Assembly president to be present and a large attendance is urged.

The ladies living in the country and members of St. Mary's Catholic church met at the home of the Misses Margaret and Catherine Hayes north of the city Thursday afternoon and organized an aid society. The officers elected were Mrs. William Knecht, Sr., president;

The ladies living in the country and members of St. Mary's Catholic church met at the home of the Misses Margaret and Catherine Hayes north of the city Thursday afternoon and organized an aid society. The officers elected were Mrs. William Knecht, Sr., president;

Are Tailored Suits Passing?

By "MARJORIE"

New York, Dec. 23—Is the traditional American tailored suit passing? This is the question haunting the tailored girl of today, as she sees the hodge-podge effects in suits that are in the market this season. The fact is that this year as never before there seems to be a sharp line of cleavage between sport clothes and street clothes. To be sure there are some sport suits of mannish tweeds, patch or insert pockets, and comfortable skirt width, but street suits are a long way away from the tailored suit that was at the topnotch of sartorial chicness in yester fashion years.

This year suits seem to flaunt the slogan of "the more, the merrier." The more metallic tinsel, embroidery, beads, fur, braid, buttons, and spangles that dribble from them, the more it faut are they. Aside from the confusing array of trimming, even lines are becoming hodge-podge. Thus, suits of tiered, ruffled or Shirred skirts are shown with cape or panel coats. The reign of the fluffy, ruffly suit is upon us. Even such suits as are cut on long directoire lines in an attempt to get back to the classic tailored effect carry out this new rage by Medicis frills of fluted net, lace, or satin at cuff and throat.

Considering that suit skirts are being worn shorter than for many seasons back—twelve inches above being the regulation height—the ensemble of a suit overlaid with embellishments and broken by tiers of capes or skirt bandings, is a "choppy" effect, to say the least.

A typical modish suit is now in the window of a very high-priced ladies suit shop. The material is wool velour of a peacock blue shade. The raglan-sleeved coat is

cut surplice and is fastened by carved wooden buttons of colors ranging from red to yellow. The entire coat is circumnavigated by rows of fluting, made from blue chiffon and stitched onto the suit with yellow silk. Fitch bandings finish collar and cuffs. The skirt is three-tiered and has the fluted trimming upon each tier. We grant that the ensemble is novel, but it is also "gingerbread".

This over elaboration does not seem quite so out of place upon dress suits, fashioned from velvets, brocades, or satins. But upon the whole it is the cloth suits of velour, duvetin, duvet de laine, or peach bloom that exploit trimming the most, and the richer fabrics content themselves with a trifling bit of metallic embroidery or fur bands. Such

a dress suit is shown of taupe chiffon velvet. The coat is very widely circular at the bottom and is richly embroidered with a leaf and flower pattern wrought in copper silk and iridescent beads. A velvet sash of taupe overlaps the peg-top skirt, and taupe fur bandings outline neck and cuffs.

The box coat with leg o'mutton sleeves is back this season. These suit coats are generally cut surplice front and are either banded with fur or adorned with huge carved buttons. Butterfly or scarf collars are very chic. Tunic suits present the novelty of slashes, front, sides and back, with folds of the gay lining showing through the slashes. These tunics have their ups and downs, as one side generally hangs lower than the other. Such

skirts as are straight in line are besprinkled with intricate beaded and braided designs.

Cut This Out—It is Worth Money

Cut out this slip, enclose with 5¢ and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headache and sluggish bowels. F. B. Johnson.—(Adv.)

CARE IN BUYING

Nearly every buying mistake comes from not being careful enough.

A trifle more time spent in making sure may save you many dollars and many hours of regret. The corset you buy and never wear is the really expensive corset. The corset that misses being exactly what you want is the one that costs more than you

GOSSARD :: CORSETS

can afford. The ordinarily made corset that loses its shape and does not wear well is an extravagance.

If you will permit us to properly fit you to a Gossard Corset we will assume full responsibility for your complete satisfaction. Our expert service protects you against regrettable buying mistakes.

REAL ESTATE SALES SHOW SLIGHT DROP

First Part of October Not up to The
Latter Part of September When
Sales Were Big

TOTAL PLACED AT \$92,725

Largest Sale Was 80 Acre Farm in
Ripley Township Which Was
Bought for \$15,600

The first two weeks in October showed a slight loss in real estate business in Rush county, over the preceding month, when the sales for the first half of this month dropped to \$92,725.20, or almost one half of the former two weeks period.

The largest single transaction recorded was \$15,600 and was an 80 acre farm in Ripley township which was bought by John F. Swain from Charles O. Kennedy. The next sale amounted to \$12,000 and was a Posey township farm, consisting of 62 acres, owned by Thomas McCoy and sold to John McCoy.

James M. Custer of Washington township sold a 40 acre tract to Larue A. Mull in which the consideration amounted to \$10,000.

There was only a very little real estate changing hands in Rushville during the first fifteen days of this month, according to the deeds that have been recorded. The transfers follow:

Rachel L. and Joseph C. Christman to Joseph L. Clements, 4.69 acres in Rushville township, \$4100. Burley and Nettie Mabray to George T. Newsom lot 43 in Rose Hill Addition to Carthage, \$400. Charles B. French to Charles C.

ONLY ABSOLUTE SMOKE CONSUMING STOVE ON EARTH

The Air Tight Hot Blast

FLORENCE

Beware of imitations and unscrupulous people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find out when too late. Examine the Florence carefully before you buy.

NO SMOKE.

NO SOOT.

NO DIRT.

EVERYTHING IS CONSUMED

NO CLINKERS.

At end of season's use with soft coal there will be no soot in pipe or flue.

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire-keeping principle.

It will be as good a fire-keeper 20 years hence as it is today. The Hot Blast Air-Tight Florence will heat twice the same space that can be heated by any other stove on earth at one-half the cost.

The only perfect floor heater that is or has ever been made.

All features are patented and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

If the Florence is operated according to directions—The No. 153 will heat from 3 to 5 ordinary rooms all winter with 4 tons of slack or lump coal. The No. 155 will heat 4 to 6 ordinary rooms all winter with 6 tons of slack or lump coal.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal or slack and all the smoke and gases. No filling up the stove, pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

Compare prices with other makes of stoves and you will find the FLORENCE from \$15 to \$25 cheaper than any other make of stoves.

STYLE HEADQUARTERS where Society Brand Clothes are sold

© A. D. & C., 1920

Why we sell Society Brand Clothes

Because you
should buy them

When a man puts on Society Brand Clothes he, in a measure of speech, steps entirely out from the crowd of commonplace clothes wearers—he becomes a style leader.

Society Brand Clothes give distinction of appearance through their skill and good judgment in tailoring. It is tailoring without fancy trimming—tailoring without a flaw.

We find that the men who think ahead of the crowd like Society Brand Clothes—for their style value, their wear value and the ease with which they can purchase a correct-fitting suit or overcoat.

Knecht's O.P.C.H.

TO PLAY IN INDIANAPOLIS

Bloomington, Ind., Oct. 23.—Indiana university alumni in the Hoosier state are arranging a get-together meeting in conjunction with the Indiana-Northwestern football game at Washington Park, Indianapolis on Oct. 30. This is Indiana's third conference game and the interest in the contests is statewide. Special trains from Bloomington and other Indiana cities will bring rooters to the game.

**PHAMPHLETS GIVEN
TO U.S. SOLDIERS**

Contain Autographed Photographs of High Officials and Accounts of Episodes of War

APPEAL TO AMERICAN LEGION

Approximately Half Million Copies of Pamphlet Presented by French Not Yet Distributed

"And you yourselves?" You have taken part in the greatest adventure upon which humanity has so far ever been launched. You have seen your friends fall by your side; you your friends fall by your side; you face with death.

The American Army was great because the men in it were moved to be their best. Though you disperse as soon as you touch the shores of the United States, a common determination will hold you together; it will bind you in fraternal union to the comrades in arms by whose side you fought in France. In 1776 American conquered for the liberty of their own country. In this war you have helped to win the freedom of universe.

The above are passages from the souvenirs pamphlet being distributed by the French Government to each American soldier, sailor and marine who served in Europe during the World War. It contains autographed photographs of high officials of the French Government and brief accounts of some of the important episodes of the War.

Approximately half a million copies of this pamphlet have not yet been placed in the hands of Americans who served in France, and the Adjutant General of the Army has appealed to the Legion to assist in the distribution which is being carried out through the various Army recruiting stations. The institutions to recruiting officers are for them to get in touch with organization such as the American Legion, ascertain how many members entitled to the booklets have not yet received them, and arrange to furnish the required number of copies.

**WHEAT OUT-LOOK
NOT REASSURING**

Heavy Importations From Canada Has Driven Down Prices at U. S. Milling Centers

LOWEST PRICE SINCE 1916

Without Tariff Law Absolutely no Barrier to Keep Out Foreign Product Duty Free

Chicago, Oct. 21.—Wheat on the Chicago markets at \$2.17 today is selling for a lower price than at any time since 1916, when it was quoted at \$2.06. Heavy importations from Canada under the reciprocity act on agricultural products has driven down wheat prices at United States milling centers and the outlook is far from reassuring to the Yankee farmer who sowed wheat a year ago with the expectation of a profitable market this fall.

In October 1919 wheat sold at \$2.88 a bushel. The same month in 1918 it was \$2.98 and a year before that it was \$2.20. In 1916 it was \$2.06 and in 1915 \$1.20. That was about the time the foreign demand began to grow to such proportions that the price began to ascend steadily. But before the war cut off the production of half the world and with reciprocity in force on the North American continent, there was a different story about wheat. In 1913, a year before the outbreak of the war, wheat sold at \$1.08 in March and had dropped to 96 cents by October.

With the European production getting back to normal and the oversea markets pretty well filled up the grain growers in this country fear the wheat market is now headed back toward 1913, and reports from Canada, stating that the Canadian growers have a surplus of 200 million bushels of wheat for export from this year's crop show that the fears of the farmers are undoubtedly well founded.

The United States is bound to be the principal market for the Canadian surplus, and without a tariff law of any kind there is absolutely no barrier to keep out the inrush of foreign grown product duty free. This puts the United States farmer at the mercy of Canadian competition.

Minneapolis, Chicago and Buffalo the big grain centers of the country are reported flooded with the Canadian grain. The Southwestern growers are beginning to turn their crops into the market freely and the only factor that is keeping the market from being literally swamped is the ear shortage.

It is pointed out here that the Canadian farmer is getting the benefit of the United States prices and if the home growers such as the farmers of Illinois, Ohio and Indiana adhere to their holding attitude they may be forced later on to sell at prices that will be radically reduced by the continued heavy importations of the 200 million bushels of Canadian surplus.

IT STOPS THAT TICKLING

You can relieve spasmodic croup, whooping cough, la grippe, bronchial cough, or a cold—either a fresh one or one that "hangs on"—with a few doses of Foley's Honey and Tar. E. G. Darnall, Bonham, Tex., writes: "I have been bothered with a cough and tickling in my throat, so I got a bottle of Foley's Honey and Tar, which stopped the cough and that tickling in my throat. It is the first thing I ever got hold of that would stop it." It loosens phlegm and mucus. Clears the air passages, and covers inflamed surfaces with a soothing, healing coating. Contains no opiates. F. B. Johnson.—(Adv.)

"A few minutes more, Peggy dear, and Daddy will be back with the Kemp's Balsam. Then you can go to sleep and forget that horrid old cough."

MANY PROBLEMS BEFORE LEAGUE

Assembly of The League Meets at Geneva For Initial Session Nov. 25 at 11 O'clock

THE PROGRAM IS ANNOUNCED

Number of Days Will be Required Merely to Hear Reports of Various Commissions

By WEBB C. MILLER
(U. P. Staff Correspondent)

London, Oct. 10. (By Mail).—Charges that the League of Nations is accomplished nothing during its first ten months of existence will be met when the Assembly of the League meets at Geneva for the initial session at 11 o'clock on the morning of November 15.

Advance information indicates that a number of days will be required merely to hear the reports of the various commissions which have been authorized by the Council to investigate international questions.

The first meeting probably will be presided over by M. Paul Hymans, of Belgium. Later a permanent president will be chosen by the Assembly to preside for the remainder of the conference.

The first subject on the program is the discussion and adoption of rules of procedure and the appointment of the committee to examine and report on the credentials of the delegates.

Then will come the matter of admission of states not named in the original covenant, and not signatories of the peace treaties. These states, who have already qualified for full membership rights, will be immediately enrolled in the League.

Then will come the consideration and action of the League Council in the following matters:

The appointment of three members of the Saar Valley boundary Commission.

The Saar Basin governing Commission.

The appointment of the high commissioner of Danzig and the approval of the constitution of the Free City.

Responsibilities of the League arising out of the distribution of mandates and the enforcement of Article XXII (on mandates).

The appointment of Dr. Fridjof Nansen, Arctic explorer, to investigate the problem connected with the repatriation of ex-enemy prisoners from Russia and Germany to their respective countries.

The proposed Commission of Enquiry on Russia (defunct).

The Polish Minority Treaty—Guarantees of the League.

The resolution regarding the admission of Switzerland.

The establishment of the permanent Commission under Article XI of the Covenant.

The first and second budgets of the League.

Relief in Central Europe and methods and measures to combat the spread of typhus.

Eupen and Malmedy (M. Da Cuhna's report approving the plebiscite which gave these provinces to Belgium).

Relations between the Council and the Assembly.

Following the Assembly's action on these matters, Secretary Sir Eric Drummond will report in detail on the present organizations and work of the League Secretariat, and the resolution of the Council which established the seat of the League at Geneva.

The next subject that will be dealt with will be the Root-Phillimore International Court of Arbitration. Inasmuch as several European nations are as opposed to the unlimited powers of the Court, as the United States is to the unqualified Article Ten of the Covenant, considerable debate is anticipated before the Court's constitution is finally approved.

The big question in the minds of many anti and pro-league partisans is: Shall the court be subservient to the League Council or shall the League Council be powerless to modify or change any decisions arrived at by the Court?

The other questions, on the tentative agenda, and the order in which they will be taken up are:

The establishment of a Permanent Health organization.

An organization to deal with international communications and transit questions.

A Tribunal to attend to the settlement of differences referred to in various articles of the Versailles treaty.

The relations between Technical

Organizations and the Council and Assembly of the League.

Recommendations of the International Financial conference.

Preparations required to enable the economic weapon of the League to be used in case of necessity.

The Report of the Statistics Commission.

The Liquor Trade in Africa.

Supervision over the execution of agreements reached with regard to the traffic in women and children.

Supervision of traffic in arms and ammunition and its control.

NIGHTLY RAIDS INCREASES

Cotton Growers in Danger Who Refused to Close Gins

Dallas, Texas, Oct. 23.—New outbreaks of terrorism by night riders in case cotton growers refused to close gins for higher prices, was reported today.

The cotton gin at Handley, east of Fort Worth, was destroyed by fire. Authorities suspected night riders. Threats to burn the plant if it continued to operate were received by officials of the Corsicana Company at Corsicana, Texas. Letters containing threats were signed "gin burners". Officials stated they would continue to run their plants.

Federal officials continue their investigation into the threats against a local newspaper that unless they support the campaign to boost cotton prices, their plant would be destroyed.

GERMANY BEGINS HER DRIVE IN MEXICO

German News Service is Appearing Now in the Press of Capital—Posters Displayed

PRESENTS HER VIEWPOINT

(By United Press)

Mexico City, Oct. 23.—Germany is beginning in earnest her drive to regain lost commercial prestige in Mexico. A German news service, displayed throughout the city announces that German motion pictures will be shown shortly at the local cinemas.

The German news service, which is under the direction of the same Germans who dispensed propaganda here during the war, is devoted largely to presenting the German point of view in European political question, and to information on the rehabilitation of German industry. The movies, it is believed, will attempt to demonstrate Germany's recovery from the war, socially and industrially, depicting scenes in manufacturing plants. How to distribute these films evidently has delayed their appearance on the screen, for the leading exchange, which controls nearly all of the theaters, declares that the Mexican public insists on American and Italian films.

In the meantime German business firms, who are now handling Ameri-

can goods, promise their customers that the products of German factories will soon be ready for the market.

FREDERICTON NEW BRUNSWICK

—The provincial output in wool this year has amounted to about 70,000 pounds, and of this about 35,000 pounds has been disposed of to American buyers.

A box social will be given at the Walrus Ridge school house, Friday night Oct. 22nd, 1920. The ladies will each please bring a box. A cake will be given to the most popular young lady present. Proceeds for the benefit of school. The public is invited.

SEE THE ASBESTOS SWEAT

ALL RANGES ON LEGS!
"OH — YOU BEAUTY"

That's what comes to your mind every time you go in the kitchen and see the Copper-Clad Range. It is an inspiration because the finest known example of the artificers' art in range making. It is a picture because so pleasing—a statue because ideal in proportions—a symphony because of the perfect performance.

THIS Set of Elegant Aluminum Ware FREE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale.
Come—See the Asbestos Sweat.

SEE WHY COPPER-CLAD RANGES DO NOT RUST OUT

A section of a range body is heated and there on the iron body is the sweat from the asbestos. Right before your eyes you see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word—you see—you know—absolutely, positively.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See the water sizzle and boil away on the 3-ply

Copper-Clad means that Pure Sheet Copper is placed BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

SPECIAL DEMONSTRATION AND SALE OF

COPPER-CLAD RANGES

FOR ONE WEEK ONLY

October, 25th to 30th

REFORMED MAN DIVULGES THEFT

Former Convict, Confidant of Victor Ellerman, Who is Serving Sentence, Writes Prosecutor.

WHITE LEAD IS RECOVERED

Found Buried on Knecht Farm as Ellerman Had Confided to Friend—Parole Goes Glimmering.

Prosecutor Stevens today recovered 700 pounds of white lead from the premises previously occupied by Victor Ellerman, who is now serving a two to fourteen year sentence or a grand larceny charge, in connection with the theft of linseed oil from William Knecht.

Prosecutor Stevens received a letter from a man who signed himself a "Reformed Man," who was in prison with Ellerman and who became intimately acquainted with him. The letter contained the information about the stolen lead that was buried on the Knecht farm, north of here, and this afternoon it was unearthed and taken to the Pinnell-Tompkins-Lumber company, from which place Ellerman had stolen it several weeks before he was arrested. It was valued at \$96.

The letter also discloses some startling facts in the way of threats, and will most likely mean that Ellerman will be compelled to serve out his entire 14 years, as the letter will be sent to the State Board of Paroles as proof of the undeserving pardon.

The letter in part is as follows:

"I am writing you these few lines on behalf of the neighbors in your county. I done time in Michigan City and I learnt a great lesson there. I worked in the dining room there with Victor Ellerman who was sent up from your town. He goes up for parole the last Friday in October and I thought it my duty to let you know he is going to burn the man's house that had him arrested and he swears he is going to burn the house of the man that he claims is the father of the little boy he chased from home and he also says he has 700 pounds of white lead buried in the old barn where he lived that he stole from a lumber company in Rushville."

"That boy is crazy and full of the devil with it. He laughs of how he burnt his own house to get the insurance and how he used to steal hogs and chickens in that neighborhood. Now it is up to you and the judge whether you want him back in your community, or let him stay till he gets that stuff out of his head."

The letter continued to say that Ellerman had sworn vengeance on the people mentioned above. The man who signed the affidavit was William Knecht, and he is the person referred to about burning his house.

"The Reformed Man" also tells Prosecutor Stevens the following:

"He says you people are all afraid of him. He said you had him locked up over some trouble with his small step daughter, but you was not smart enough to convict him".

Ellerman, it will be recalled, caused Sheriff Jones some anxiety when on the morning of his departure for the prison, he ran away as the car pulled into the station, but he was later captured by the sheriff of Shelby county and returned here.

Prosecutor Stevens stated that his chances for a pardon would no doubt be small, when the facts in this letter will be presented.

SPICELAND INDICTMENTS

Newcastle, Ind., Oct. 23.—Arrests

in connection with the robbery of the Spiceland Bank on February 26

are expected soon on warrants is-

sued on an indictment returned late

yesterday after a day of investiga-

tion by the grand jury. The indict-

ment was returned in open court

and the warrants immediately is-

sued.

ONE LICENSE IS ISSUED

A marriage license was issued

this morning to Henry Fink a moulder of Ohio and Mrs. Letitia Orman,

daughter of Mrs. Peter Conolly of

this city.

The Misses Edna Krammes, Libby Schatz and Marie Perkins were the other-goers in Indianapolis today.

It is pointed out by persons who

MASSEY IS OUT OF JAIL

Connerville Man Allowed to go on His Own Recognizance

Everett Massey, who has been in jail several days on account of his bondsmen filing a petition to withdraw from his bond, was released from the jail this morning on his own recognizance, and will be allowed to return to his work in a garage at Connerville. Massey is held on a charge of being an accessory before the fact, and was implicated by members of the Demaree gang. He was said to be the person who drove an automobile on the night that the hardware store in Carthage was robbed. His bond was placed last March at \$1,000 and several men went on the bond, but asked to be released stating that they had been informed that the defendant was preparing to leave Connerville. He is also the son of Mrs. Frank Hasher of this city.

ANDERSON FARMERS HOLD ANNUAL MEET

Officers in Most Instances Are Re-elected For Another Year—New Members are Added

200 ATTEND THE BANQUET

The farmers of the Anderson Township Association held their annual meeting last night in the school building at Milroy, at which time officers for the ensuing year were elected, and the members and their families had a pitch-in-dinner in honor of the annual event.

W. B. Crane was re-elected pres-

ident, as was Ray Selby for vice

president. Virgil Henry was elected

secretary-treasurer, succeeding

Clyde Archey. Clifford Power was

also re-elected as a director in the

county organization, representing the Anderson township association.

One of the largest and most

enthusiastic meetings of the orga-

nization was reported last night,

and approximately 200 people were

served at the pitch-in-dinner, which

followed the business hour. Several

new members of the township orga-

nization were also reported and

several minor business affairs were

taken care of.

A discussion was held regarding

the Memorial building petition filed

by the American Legion, but no vote

was taken, as it was decided to let

this remain over until another

meeting.

The membership drive was start-

ed with a meeting by the Walker

township association last night and

a vote on the Memorial Hall peti-

tion showed a majority against it.

Dr. Fred H. Finlaw of Arlington,

ex-service men, spoke for the peti-

tion and Ed Lowden spoke against

it.

"The Reformed Man" also tells

Prosecutor Stevens the following:

"He says you people are all afraid

of him. He said you had him locked

up over some trouble with his small

step daughter, but you was not

smart enough to convict him".

Ellerman, it will be recalled,

caused Sheriff Jones some anxiety

when on the morning of his depart-

ure for the prison, he ran away as

the car pulled into the station, but

he was later captured by the sher-

iff of Shelby county and returned

here.

Prosecutor Stevens stated that his chances for a pardon would no doubt be small, when the facts in this letter will be presented.

BRITISH RAILWAY STRIKE POSTPONED

Sympathetic Walkout Scheduled For Midnight Sunday Called Off at Request of Miners.

PREMIER TO MEET MINERS

(By United Press)

London, Oct. 23.—The nation-wide railway strike scheduled to start at midnight Sunday as a sympathetic demonstration with the miners' walkout was postponed this evening.

Representatives of the striking miners asked the railway workers to suspend the strike. The report was made at a joint conference of miners and the railway men's executive board, it was understood.

The reason assigned by the miners for their request was that Lloyd George had invited them to participate in a conference to attempt a settlement of the strike and they did not wish to be embarrassed with their negotiations by threats of a

railway strike.

This is the reason Fon Riggs, re-

publican county chairman, and Mrs.

A. L. Stewart, chairman of the wo-

mens organization, are urging that

the new voters call at republican

headquarters in Second street to

get some instructions. Headquarters

may be reached by climbing the sec-

ond stairway west of Main street

on the south side of Second.

It is pointed out by persons who

TRIO ADMIT GUILT IN CIRCUIT COURT

Sentence Withheld by Judge Sparks in Cases of Clevenger, Manuel and Jones

BONDS ARE FIXED AT \$500

Court Wishes to Investigate Former Conduct—More Loot Found at Clevenger Home

Charley Clevenger, age 24; Lawrence Manuel, age 22; and Ross Jones, age 20, the trio who were arrested yesterday on charges of larceny in connection with the opening of express shipments, each entered a plea of guilty this morning before Judge Sparks in circuit court, and judgment was withheld pending an investigation by the court.

All three of the young men were employees of the American Railway Express company, and were under suspicion for several months by detectives; when local merchants reported articles missing from express shipments.

The arrests were made by Detectives W. T. Crosby and Thomas B. Birk, who have been working on the case for some time. Sufficient evidence was obtained yesterday to warrant the charges, and after considerable questioning by the detectives, the three men made confessions concerning petty thievery.

The detectives stated that they have a signed statement from Manuel, to the effect that the trio had engaged in the illicit sale of whiskey, that the goods were obtained in Hamilton for \$12.50 a quart and brought here and sold for \$20 a quart.

When the raid was conducted at Jones' residence yesterday one quart was found, and from reliable sources it was learned that 20 quarts were removed from the residence shortly before the officers conducted their search.

Jones also recently purchased an automobile, which was paid for in full, according to one who saw the receipt bill of sale.

Additional evidence was found last night by the detectives of the Clevenger home. A rifle, valued at \$38 was found, which was a part of a shipment consigned to John B. Morris in this city.

At this same residence, the detectives said they found a valuable suit of clothes, valued at \$38, which was also a part of a shipment consigned to J. L. Cowing, Son and Company.

Several other thefts that were unearthened by the detectives were mentioned in the Daily Republican last evening.

All three were arrested yesterday on charges filed in Squire Stech's court, charging petit larceny. Prosecutor Stevens later in the day transferred the charges to the circuit court, where they were changed to grand larceny in the case of

AT THE SPECIFIED PRICE

Weekly Reports to Commission Will be Required—Due to Shipping Outside State

Indianapolis, Ind., Oct. 23.—The state special coal and food commission today issued an order directing every coal mine operator in the state to produce a given amount of coal each week for sale within Indiana and sell it at prices specified by the commission.

Under the order, the average monthly consumption in Indiana is 1,800,000 tons of coal and this is divided among 225 mine operators, according to their producing capacity. The division ranges from 50 net tons to 3,500 net tons a week.

The commission further ordered that the "persons, firms or corporations named" shall make weekly reports to the commission, the first of which was due today.

The prices are the same as those heretofore and range from \$2.80 to \$5.85 a ton at the mouth of the mines.

The commission's order resulted from friction with the mine owners in shipping their product outside the state to escape provisions of the recent price fixing order.

Anticipating possible court action against the order, Chairman Jesse Eschbach issued a statement in which he said:

"There is no reason why a large part of one class of our citizens may willfully disobey the law of the land while others must yield in strict obedience thereto.

"It is now up to the retailer and other consumers to get their orders under the operators' hands so that when the operators offer for sale in this state the coal specified, there will be buyers for it.

"In order to avoid confusion on the placing of too many orders with some operators and too few with others, the commission has suggested to the different retailers the operators with whom they should, at once place orders for coal and we have endeavored to arrange the suggestion in such a manner as to send orders to all mines in proportion to the amount which we have required them to offer for sale in Indiana.

"We believe the increased freight rates would result in a very marked increase of the consumption of Indiana coal within the state. We are urging retailers everywhere to increase the market for Indiana coal in their communities and this movement we hope to aid in every possible way.

"Under the law operators refuse

"The Solid South"

It is doubtful if any other independent country in the world possesses a section which is always of one political faith, such as is "The Solid South". It never changes its political complexion. Ever since the Civil war days, the southern states have always been democratic. Sometimes a republican congressman or two emerges from one of the southern states, Virginia, Kentucky or Tennessee, and occasionally one of these states elects a republican governor, as in the present gubernatorial administration in Kentucky but with these exceptions the "Solid South" is always democratic.

This section supplies to the senate 32 senators and at present more than one hundred members of the house of representatives. In every presidential election its electoral votes are always counted for the democratic nominee.

In fact, if the democratic party could not always depend on the "Solid South" in presidential elections the chances of any democratic candidate for president being victorious would be exceedingly slim. It is the south that wins whenever a democratic president wins in the electoral College.

Similarly, when congress is democratic it is the "block" of democratic senators and representatives from the south that constitute the majority of democratic control in house and senate, and very naturally under such circumstances the members of congress from the southern states are the dominating and controlling power in all legislation in a democratic congress.

When the democrats are in control of congress they manage all legislation by the caucus system, in house and senate. In a senate or house democratic caucus the senators or representatives from the sixteen southern states always vote together on almost all legislative measures, and on all congressional policies. The interests of each of the sixteen southern states are identical in legislation and government, and as the men in congress from this section nearly always constitute a majority of the democrats of any congress that is democratic, the men from this section control all caucuses and legislative action.

This condition has existed in con-

gress for many years, when the national legislature happened to be democratic. "The Solid South" dominated the house and senate and enacted legislation. In a great many instances, for the benefit only of the south. An example of this was seen in the last "war" congress, which was democratic and which fixed a government price on wheat but refused to fix a government price on cotton. Practically no cotton is produced outside of the southern states.

As the southern democrats absolutely dominate congress when that party controls congress it follows that it is a waste of time and an idle proceeding for states of the west, mid-west, and north to elect democratic senators or representatives. These democrats from the other three great sections of the country, as congress when democratic is dominated by the men from the south, have very little to say and hardly any voice at all in shaping national legislation or the congressional policies. The democratic "block" from the south votes solidly in the democratic caucus, and the democratic congressmen from other sections of the country are practically ignored, unless they subscribe blindly to the demands of the southern members.

A vote for a democratic senator or representative in November is only a vote toward perpetuating southern rule in congress, should the next congress be democratic. It does not seem reasonable that

THINK OF THIS.
Say, bo, just getting down to facts,
Our job as jester scowling,
Has anyone, by your kind acts,
Been gladder since this morning?

Settlers.
Settlers are divided into many kinds.

Among those who have done a great service to mankind in the classification of settlers are Dunn and Bradstreet and the Credit Men's association.

Some people are proud to be called "early settlers," but many of the early settlers in one place did so because they were such late and reluctant settlers somewhere else.

Shakespeare said: "The evil that men do lives after them."

But the people that men do run after them, send after them, and do other disagreeable things like that.

One hears now and then of an "old settlers' picnic."

But if some one were foolish enough to try to organize a "prompt settlers' picnic" it would be a rank failure.

There wouldn't be enough persons there for a quorum.

The only people you can converse freely with on the subject of settling is the man you owe.

The man who owes you is strangely reticent and sensitive on the subject, and will even rudely walk away if you persist in referring to those disagreeable things.

The average old settler, if you have the dots on him, will stick fairly close to the actual year he moved into the community.

But if you haven't got him tagged, he'll stretch it at least fifteen years.

The inducements to colonization are always begging people to come there and settle.

Their pleading usually gets those that the former neighborhood pleads with to stay where they are and settle.

FINNIN' FILOSOFY

Most min' whin they have lurned a thrade sa-say: "Good-bye, bra-sins! I won't iver nade yez anny more! I now hiv a thrade!" An' people that hires them fr' a job notices at right awaay.

It Can't Be Done.

The young Puritan lad who had been put in the stocks for playing seven-up in the haymow, muttered to himself:

"They talk about 'dealing in stocks'! Deal nothin'! Why a feller couldn't even swindle 'em, let alone deal with his hands fastened up this way!"

This condition has existed in con-

COMMITTEE

the south, the smallest section of the whole country, in area, population, and wealth, should be allowed to dominate congress when congress has a "democratic" majority, but such has always been the case.

Men of the sporting fraternity evidently think that Cox isn't a eight to one that Harding will be elected.

One of the very good reasons for being opposed to the Wilson league of nations is that so many of the college presidents and professors are for it.

Going without things is one way of giving the profiteers what's coming to them.

Hez Heck says: "A man is almost justified in asking for a divorce if his wife eats crackers in bed."

You don't get a good class of citizens if you have a lot of officials snooping around trying to "get something" on them.

Carry your own thinking apparatus with you if you ever expect to amount to anything. It helps out just like a spare tire of your car.

Truth Is Worse.

When folk lie about you don't get angry—suppose they had known the truth about you and told that—Boston Post.

Thank Offering service at 10:45. All the members of the congregation are invited to bring their Thank Offering to this service. The subject of the pastor's message will be "The Mission of the Church". The Young People will meet at 6 o'clock. Leader Ira Fultz. Preaching at 7 o'clock. STEEL COMPANIES ASK FURTHER ADJUSTMENTS

E. H. Gary Seeks Changes in a Plan
Made Before the American Iron
Institute

MINES ARE UNABLE TO SUPPLY

New York, Oct. 23.—Further ad-
justments of steel prices must be
made, E. H. Gary, chairman of the
board of directors of the United
States Steel company, told the Amer-
ican Iron and Steel Institute here
Friday.

Gary said a considerable reduc-
tion in certain prices and a decrease
in certain lines of industries were a
helpful condition.

"All mines have been unable to
supply the demands of the company
as to quantity and delivery and our
prices considered as a whole have
resulted in profit", Gary said.

"As a matter of course, some ad-

Warming relief for theumatic aches.

HE'S just used Sloan's

overworked muscles. Pen-
etrates without rubbing. All
druggists have it.

**Sloan's
Liniment** Pain's
enemy

justment will have to be made. With
out referring to individual cases, I
believe in many instances outrageous
big profits have been made.
This observation applies more espe-
cially to the middlemen and to the
smaller industries. It also includes
employees of certain trades but does
not pertain to the mass of workmen.

The labor question is always
under consideration in this country
and others. It should be constantly
borne in mind in order to secure the
best results mutual confidence and
friendly cooperation are essential".

BANKERS WANT REPEAL OF EXCESS PROFIT TAX

Pass Resolution Requesting Change
Also in Surtax Rate and Consider
Other Things

MAKE REQUEST OF LABOR

Washington, D. C., Oct. 23.—Im-
mediate repeal of the excess profits
tax and the revision of the surtax
rate were demanded in a resolution
adopted at the closing session of the
American Banker's Association
convention Friday afternoon.

The excess profit tax was decided
as unsuccessful and unequitable and
the surtax rates has a breaking-up
achievement.

The convention recommended that
revision be undertaken by congress
with the help of an advisory com-
mittee of bankers and business men.

Labor was "called on to abandon
the economical fallacy", that the
curtailment of output will improve
the conditions since only through
measures of reduction can wealth
be evenly distributed.

LARGE CROWDS HEAR WATSON AND M'CRAY

Republican Nominees For Senator
And Governor Speak at Rock-
port Friday Afternoon

BEST OF CAMPAIGN THERE

Rockport, Ind., Oct. 23.—Four
thousand people, composing one of
the greatest crowds that ever greet-
ed a candidate in this county, heard
Warren T. McCray and Senator
James E. Watson speak here Friday
afternoon. The crowd was so large
that the meeting, which was to
have been held in the new Spencer
county court house, was transferred
to a local garage.

McCray was enthusiastically
cheered when he was introduced by
W. C. Mason as the "next governor
of Indiana."

The gubernatorial candidate be-
gan by saying that he believes in
profiting by the experience of others
and that if elected he will sur-
round himself with trained, capable
men to assist in the proper han-
dling of the affairs of the state. He
pledged himself to a policy of ap-
pointing on boards and commissions
in charge of all different branches
of state business only practical men
especially fitted for their respective
places.

He also said that he believes that
the control of tax levies and bond
issues should be in the hands of lo-
cal taxing units in order that the
right of self determination on local
tax government by the various coun-
ties, townships, and municipalities
of the state may at all times be
preserved. He pledged himself to
give the people a sound constructive
business administration. Some
changes should be made in the road
laws, he said, and these matters will
be given early attention when he is
elected.

CENTER FIXES PROGRAM

Farmers Association Arranges For
Meeting Tuesday Night

The Center Township Farmers
association will meet Tuesday night
at Mays in the hall, at which time
they will hold their monthly meet-
ing. The program prepared for the
evenings entertainment will con-
sist of addresses by Fred Bell, Howard
Ewbank and Donald Bell, Miss
Lavanga Sears, and Miss Marjorie
Wiltrot of Indianapolis will render
a duet, and there will be readings
by Mrs. Claude Martin of Rushville.
A quartet of Rushville men will also
furnish several selections. Will
Newbold, Joe and Fred Guido and
Francis Moorman will be on the
quartet.

FORGERY CHARGE IS MADE

Democratic Chairman Charges False
Registration in Indianapolis

Indianapolis, Ind., Oct. 23.—A
suit to purge the registration rec-
ords of many alleged irregular, un-
lawful and forged registration ap-
plications in fifteen voting precincts
of the city of Indianapolis was filed
in the superior court here today by
the state, in relation of Reginald
Sullivan, democratic county chair-
man.

The complaint states that more
than 600 alleged "irregular, unlaw-
ful or false, forged or fraudulent
registrations were placed on the re-
gistration books of the first pre-
cinct of the fifth ward".

TWO ADMIT GUILT IN CIRCUIT COURT

Continued from Page One
Clevenger and petit larceny in the
case against Jones and Manuel.
The charges also include thefts
of candy and fruit, as well as wear-
ing apparel.

After each had entered a plea of

guilty, Judge Sparks placed their
bond at \$500 each, and stated that
he would not pass sentence upon
them for a few days, as he wished
to investigate the former conduct of
the men.

Clevenger provided bond, when
Fred Clevenger appeared for that
purpose. Manuel came here from
Westport, he told Judge Sparks.
Jones lives with his step mother in
West Tenth Street. His father, Al-
vin Jones, was sentenced two weeks
ago to the state prison on a serious
charge.

Old Age and Glasses

The gradual decrease of
ocular power which accom-
panies age should not be
considered contrary to na-
ture any more than it is for
the hair to turn gray, the
teeth to become defective or
the muscles to weaken.

Besides, as age advances,
the other physical faculties
are apt to be used less and
less, and the eyes more and
more.

Artificial aid is therefore
to be expected and should
always be resorted to at the
first indication of failing
eyesight. Call and let us fit
you with the glasses your
eyes require.

JESS M. POE

OPTOMETRIST
POE'S JEWELRY STORE

SOCIETY

The Tri Kappa sorority will meet Monday evening at the home of Mrs. Harry Osborne in North Harrison street. All members are urged to be present. * * *

The Loyal Daughters of the Main Street Christian church will be entertained next Tuesday evening at the home of Mrs. John Thompson in East Seventh street with a masked social. Each member is requested to come masked. * * *

The G. G. club, including the Misses Jean Herkless, Emily Manzy, Jessie Allen, Louise Pitman, Mildred Boyce, Estella Poston and Florine Walton have issued invitations for a Hallowe'en party Saturday October 30, at the home of Miss Walton in East Ninth street. * * *

A very pretty announcement party was given by Mrs. Ralph Hester at her home near Manilla Thursday evening. The party was given in honor of her sister Miss Geraldine Phares, who will be married soon to George B. John. The home was beautifully decorated for the occasion in autumn leaves and chrysanthemums. A delicious six o'clock course dinner was served, the place card announcing the engagement of Miss Phares and Mr. John. The guests were the Misses Inez Westerfield, Lucille Solomon, Mildred Heter, Ila Towns, Irene Fair, Carrie John, Pauline Towns and Julian John. The wedding will take place October 27. * * *

The Rebekah Lodge held a business meeting and social last evening in their lodge rooms in West Second street. During the business session a report was given of the district convention at Waldron and nomination of officers took place. Preceding the business session a delicious pitch-in supper was served to about sixty guests. During the social hour at the close of the meeting the guests were delightfully entertained with games and music. For the next meeting an invitation has been extended to the district president and the Rebekah Assembly president to be present and a large attendance is urged. * * *

The ladies living in the country and members of St. Mary's Catholic church met at the home of the Misses Margaret and Catherine Hayes north of the city Thursday afternoon and organized an aid society. The officers elected were Mrs. William Knecht, Sr., president;

Are Tailored Suits Passing?

By "MARJORIE"

New York, Oct. 23—Is the traditional American tailored suit passing? This is the question haunting the tailored girl of today, as she sees the hodge-podge effects in suits that are in the market this season. The fact is that this year as never before there seems to be a sharp line of cleavage between sport clothes and street clothes. To be sure, there are some sport suits of manish tweeds, patch or insert pockets, and comfortable skirt width, but street suits are a long way away from the tailored suit that was at the topnotch of sartorial richness in yester fashion years.

This year suits seem to flaunt the slogan of "the more, the merrier". The more metallic tinsel, embroidery, beads, fur, braid, buttons, and spangles that dribble from them, the more il faut are they. Aside from the confusing array of trimming, even lines are becoming hodge-podge. Thus, suits of tiered, ruffled or shirred skirts are shown with cape or panel coats. The reign of the fluffy, ruffly suit is upon us. Even such suits as are cut on long decorative lines in an attempt to get back to the classic tailored effect carry out this new rage by Medici frills of fluted net, lace, or satin at cuff and throat.

Considering that suit-skirts are being worn shorter than for many seasons back—twelve inches above being the regulation height—the ensemble of a suit overloaded with embellishments and broken by tiers of capes or skirt bandings, is a "choppy" effect, to say the least.

A typical modish suit is now in the window of a very high-priced ladies suit shop. The material is wool velour of a peacock blue shade. The raglan-sleeved coat is

cut surplus and is fastened by carved wooden buttons of colors ranging from red to yellow. The entire coat is circumnavigated by rows of fluting made from blue chiffon and stitched onto the suit with yellow silk. Fitch bandings finish collar and cuffs. The skirt is three-tiered and has the fluted trimming upon each tier. We grant that the ensemble is novel, but it is also "gingerbread".

This over elaboration does not seem quite so out of place upon dress suits, fashioned from velvets, brocades, or satins. But upon the whole, it is the cloth suits of velour, duveline, drap de laine, or peach bloom that exploit trimming the most, and the richer fabrics content themselves with a trifling bit of metallic embroidery or fur bands. Such

skirts as are straight in line are besprinkled with intricate beaded and braided designs.

Cut This Out—It is Worth Money

Cut out this slip, enclose with 5¢ and mail it to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound, for coughs, colds and croup; Foley Kidney Pills for pain in sides and back; rheumatism, backache, kidney and bladder ailments; and Foley Cathartic Tablets, a wholesome and thoroughly cleansing cathartic for constipation, biliousness, headache and sluggish bowels. F. B. Johnson.—(Adv.)

CARE IN BUYING

Nearly every buying mistake comes from not being careful enough. A trifle more time spent in making sure may save you many dollars and many hours of regret. The corset you buy and never wear is the really expensive corset. The corset that misses being exactly what you want is the one that costs more than you

GOSSARD :: CORSETS

can afford. The ordinarily made corset that loses its shape and does not wear well is an extravagance.

If you will permit us to properly fit you to a Gossard Corset we will assume full responsibility for your complete satisfaction. Our expert service protects you against regrettable buying mistakes.

REAL ESTATE SALES SHOW SLIGHT DROP

First Part of October Not up to The
Latter Part of September When
Sales Were Big.

TOTAL PLACED AT \$92,725.

Largest Sale Was 80 Acre Farm in
Ripley Township Which Was
Bought for \$15,600

The first two weeks in October showed a slight loss in real estate business in Rush county, over the preceding month, when the sales for the first half of this month dropped to \$92,725.20, or almost one-half of the former two weeks period.

The largest single transaction recorded was \$15,600 and was an 80 acre farm in Ripley township which was bought by John F. Swain from Charles O. Kennedy. The next sale amounted to \$12,000 and was a Posey township farm, consisting of 62 acres, owned by Thomas McCoy and sold to John McCoy.

James M. Custer of Washington township sold a 40 acre tract to Larne A. Mull in which the consideration amounted to \$10,000.

There was only a very little real estate changing hands in Rushville during the first fifteen days of this month, according to the deeds that have been recorded. The transfers follow:

Rachel L. and Joseph C. Christman to Joseph L. Clements, 4.69 acres in Rushville township, \$4100.
Burley and Nettie Mabry to George T. Newsom lot 43 in Rose Hill Addition to Carthage, \$400.
Charles B. French to Charles C.

ONLY ABSOLUTE SMOKE CONSUMING STOVE ON EARTH

The Air Tight Hot Blast

FLORENCE

Beware of imitations and unscrupulous people who claim to have a stove like or just as good as the FLORENCE. Do not be deceived by such false claims and find out when too late. Examine the Florence carefully before you buy.

NO SOOT. NO DIRT. NO CLINKERS.

At end of season's use with soft coal there will be no soot in pipe or flue.

The only jointless leg bottom and base with full radiation and large ash pan that is on the market or has ever been made in the history of the stove industry.

The jointless leg bottom and base makes the stove air-tight below the grate, which is the only true fire-keeping principle.

It will be as good a fire-keeper 20 years hence as it is today. The Hot Blast Air-Tight Florence will heat twice the same space that can be heated by any other stove on earth at one-half the cost.

The only perfect floor heater that is or has ever been made.

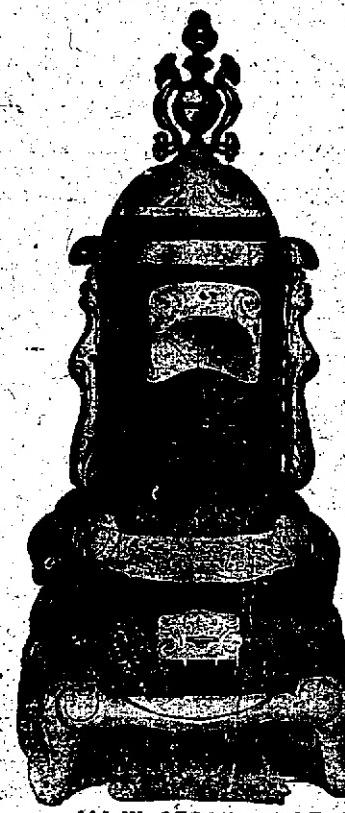

All features are patented, and no stove manufacturer, dealer or user can copy or use same until the expiration of the patent without incurring liability for an action for damages.

If the Florence is operated according to directions—The No. 153 will heat from 3 to 5 ordinary rooms all winter with 4 tons of slack or lump coal. The No. 155 will heat 4 to 6 ordinary rooms all winter with 6 tons of slack or lump coal.

THE HOT BLAST AIR-TIGHT FLORENCE burns soft coal or slack and all the smoke and gases. No filling up the stove, pipe or flue with soot. It will produce one-half less ashes than any other stove on earth with any kind of fuel and leave no clinkers or half consumed fuel.

Compare prices with other makes of stoves and you will find the FLORENCE from \$15 to \$25 cheaper than any other make of stoves.

STYLE HEADQUARTERS where Society Brand Clothes are sold

Why we sell

Society Brand Clothes

Because you
should buy them

When a man puts on Society Brand Clothes he, in a measure of speech, steps entirely out from the crowd of commonplace clothes wearers—he becomes a style leader.

Society Brand Clothes give distinction of appearance through their skill and good judgment in tailoring. It is tailoring without fancy trimming—tailoring without a flaw.

We find that the men who think ahead of the crowd like Society Brand Clothes—for their style value, their wear value and the ease with which they can purchase a correct-fitting suit or overcoat.

"And you, yourselves?" You have taken part in the greatest adventure upon which humanity has so far ever been launched. You have seen your friends fall by your side; you your friends fall by your side; you face with death.

The American Army was great because the men in it were moved to be their best. Though you disperse as soon as you touch the shores of the United States, a common determination will hold you together; it will bind you in fraternal union to the comrades in arms by whose side you fought in France. In 1776 American conquered for the liberty of their own country. In this war you have helped to win the freedom of universe.

The above are passages from the souvenir pamphlet being distributed by the French Government to each American soldier, sailor and marine who served in Europe during the World War. It contains autographed photographs of high officials of the French Government and brief accounts of some of the important episodes of the War.

Approximately half a million copies of this pamphlet have not yet been placed in the hands of Americans who served in France, and the Adjutant General of the Army has appealed to the Legion to assist in the distribution which is being carried out through the various Army recruiting stations. The instructions to recruiting officers are for them to get in touch with organization such as the American Legion, ascertain how many members entitled to the booklets have not yet received them, and arrange to furnish the required number of copies.

The United States is bound to be the principal market for the Canadian surplus, and without a tariff law of any kind there is absolutely no barrier to keep out the influx of foreign grown product duty free. This puts the United States farmer at the mercy of Canadian competition.

Minneapolis, Chicago and Buffalo—the big grain centers of the country—are reported flooded with the Canadian grain. The Southwestern growers are beginning to turn their crops into the market freely and the only factor that is keeping the market from being literally swamped is the ear shortage.

It is pointed out here that the Canadian farmer is getting the benefit of the United States prices and if the home growers such as the farmers of Illinois, Ohio and Indiana adhere to their holding attitude they may be forced later on to sell at prices that will be radically reduced by the continued heavy importations of the 200 million bushels of Canadian surplus.

IT STOPS THAT TICKLING

You can relieve spasmodic croup, whooping cough, la grippe, bronchial cough, or a cold—either a fresh one or one that "hangs on"—with a few doses of Foleys Honey and Tar. E. G. Darnall, Bonham, Tex., writes: "I have been bothered with a cough and tickling in my throat, so I got a bottle of Foleys Honey and Tar, which stopped the cough and that tickling in my throat. It is the first thing I ever got hold of that would stop it." It loosens phlegm and mucus. Clears the air passages, and covers inflamed surfaces with a soothing, healing coating. Contains no opiates. F. B. Johnson. (Adv.)

"A few minutes more, Peggy dear, and Daddy will be back with the Kemp's Balsam. Then you can go to sleep and forget that horrid old cough."

**PUBLIC SALE
OF BIG TYPE POLAND CHINAS
WEDNESDAY, OCTOBER 27, 1920**

At the farm, two miles southwest of Connersville, beginning at 12:30, we will sell 50 head of real business Polands, consisting of Yearling Sows, Spring Gilts and Spring Boars. Many of the offerings were sired by the best sires of the breed and every animal offered is of the very best of breeding and trace directly to the most noted animals of the breed.

TIMMS ORPHAN SELLS—He is a September three-year-old. There is no better breeding east or west than you will find in the pedigree of this boar. Some one will buy this boar cheap and get a world of good out of him.

FASHION MODEL—The pride of our 35 years experience as breeders is the leading boar in our herd. He is pronounced by expert judges and prominent field men, as one of the very few real yearling boars of the breed. He is just past 18 months old and stands almost 40 inches high. Your yard stick will not measure him. He is an individual that pleases; a sire that excels; big enough and good enough for all lovers of Polands. We are glad he is in our herd, and every breeder and farmer ought to be glad of the opportunity to buy such good stock at a nominal price.

HUN BUSTER—The great son of the \$10,200 Wonder Buster is still owned by us and sons and daughters in this sale, sired by him, are the best business lot he has ever sired.

EVERY ANIMAL HAS BEEN IMMUNED

Sale under large tent, rain or shine. Come and spend the day with us and let the good wife enjoy herself and the boys and girls see the big hog.

Lunch will be served by the Bunker Hill Ladies' Aid. Auctioneers—Col. G. M. Isenhower, Martinsville, Ind.; Col. Wm. Flanagan, Connersville, Ind.

MANY PROBLEMS BEFORE LEAGUE

Assembly of The League Meets at Geneva For Initial Session Nov. 25 at 11 O'clock

THE PROGRAM IS ANNOUNCED

A number of Days Will be Required Merely to Hear Reports of Various Commissions

By WEBB C. MILLER
(U. P. Staff Correspondent)

London, Oct. 10. (By Mail).—Charges that the League of Nations has accomplished nothing during its first ten months of existence will be met when the Assembly of the League meets at Geneva for the initial session at 11 o'clock on the morning of November 15.

Advance information indicates that a number of days will be required merely to hear the reports of the various commissions which have been authorized by the Council to investigate international questions.

The first meeting probably will be presided over by M. Paul Hymans, of Belgium. Later a permanent president will be chosen by the Assembly to preside for the remainder of the conference.

The first subject on the program is the discussion and adoption of rules of procedure and the appointment of the committee to examine and report on the credentials of the delegates.

Then will come the matter of admission of states not named in the original covenant, and not signatories of the peace treaties. These states, who have already qualified for full membership rights, will be immediately enrolled in the League.

Then will come the consideration and action of the League Council in the following matters:

The appointment of three members of the Saar Valley boundary Commission.

The Saar Basin governing Commission.

The appointment of the high commissioner of Danzig and the approval of the constitution of the Free City.

Responsibilities of the League arising out of the distribution of mandates and the enforcement of Article XXII (on mandates).

The appointment of Dr. Fridjof Nansen, Arctic explorer, to investigate the problem connected with the repatriation of ex-enemy prisoners from Russia and Germany to their respective countries.

The proposed Commission of Enquiry on Russia (defunct).

The Polish Minority Treaty-Guarantees of the League.

The resolution regarding the admission of Switzerland.

The establishment of the permanent Commission under Article XI of the Covenant.

The first and second budgets of the League.

Relief in Central Europe and methods and measures to combat the spread of typhus.

Eupen and Malmedy (M. Da Cuhna's report approving the plebiscite which gave these provinces to Belgium).

Relations between the Council and the Assembly.

Following the Assembly's action on these matters, Secretary Sir Eric Drummond will report in detail on the present organizations and work of the League Secretariat, and the resolution of the Council which established the seat of the League at Geneva.

The next subject that will be dealt with will be the Root-Philimore International Court of Arbitration. Inasmuch as several European nations are as opposed to the unlimited powers of the Court, as the United States is to the unqualified Article Ten of the Covenant, considerable debate is anticipated before the Court's constitution is finally approved.

The big question in the minds of many anti and pro-league partisans is: Shall the court be subservient to the League Council or shall the League Council be powerless to modify or change any decisions arrived at by the Court?

The other questions, on the tentative agenda, and the order in which they will be taken up are:

The establishment of a Permanent Health organization.

An organization to deal with international communications and transit questions.

A Tribunal to attend to the settlement of differences referred to in various articles of the Versailles treaty.

The relations between Technical

Organizations and the Council and Assembly of the League.

Recommendations of the International Financial conference.

Preparations required to enable the economic weapon of the League to be used in case of necessity.

The Report of the Statistics Commission.

The Liquor Trade in Africa.

Supervision over the execution of agreements reached with regard to the traffic in women and children.

Supervision of traffic in arms and ammunition and its control.

NIGHTLY RAIDS INCREASE

Cotton Growers in Danger Who Refused to Close Gins

Dallas, Texas, Oct. 23.—New outbreaks of terrorism by night riders in case cotton growers refused to close gins for higher prices, was reported today.

The cotton gin at Handley, east of Fort Worth, was destroyed by fire. Authorities suspected night riders. Threats to burn the plant if it continued to operate were received by officials of the Corsicana Company at Corsicana, Texas. Letters containing threats were signed "gin burners". Officials stated they would continue to run their plants.

Federal officials continue their investigation into the threats against a local newspaper that unless they support the campaign to boost cotton prices, their plant would be destroyed.

GERMANY BEGINS HER DRIVE IN MEXICO

German News Service Is Appearing Now in the Press of Capital—Posters Displayed

PRESENTS HER VIEWPOINT

(By United Press)

Mexico City, Oct. 23.—Germany is beginning, in earnest her drive to regain lost commercial prestige in Mexico. A German news service, displayed throughout the city announce that German motion pictures will be shown shortly at the local cinemas.

The German news service, which is under the direction of the same Germans who dispensed propaganda here during the war, is devoted largely to presenting the German point of view in European political question, and to information on the rehabilitation of German industry. The movies, it is believed, will attempt to demonstrate Germany's recovery from the war, socially and industrially, depicting scenes in manufacturing plants. How to distribute these films evidently has delayed their appearance on the screen, for the leading exchange, which controls nearly all of the theaters, declares that the Mexican public insists on American and Italian films.

In the meantime German business firms, who are now handling Ameri-

can goods, promise their customers that the products of German factories will soon be ready for the market.

FREDERICTON NEW BRUNSWICK

The provincial output in wool this year has amounted to about 70,000 pounds, and of this about 35,000 pounds has been disposed of to American buyers.

A box social will be given at the Walnut Ridge school house, Friday night Oct. 22nd, 1920. The ladies will each please bring a box. A cake will be given to the most popular young lady present. Proceeds for the benefit of school. The public is invited.

SEE THE ASBESTOS SWEAT

SEE WHY COPPER-CLAD RANGES DO NOT RUST OUT

A section of a range body is heated and there on the iron body is the sweat from the asbestos. Right before your eyes you see just exactly what happens every time you build a fire in your range. You see why the sheet of copper is used and what it does and how it does it. You take nobody's word — you see — you know — absolutely, positively.

SAVE A THOUSAND SHOVELS OF COAL EVERY YEAR

You know how the many walls and air spaces of a thermos bottle hold the heat. You know that a house with a single wall is not as warm as the house with two walls and an air space. You know that storm windows, two windows with a space between, are much warmer than a single window even if it is as thick as the two windows.

The Copper-Clad Range has four walls and an air space. See what it means in fuel saving. See the water sizzle and boil away on the 3-ply.

Copper-Clad means that Pure Sheet Copper is placed BETWEEN the sweaty asbestos and range body. To place it elsewhere would be like climbing on top of a roof to get out of the wet.

SPECIAL DEMONSTRATION AND SALE OF

COPPER-CLAD RANGES

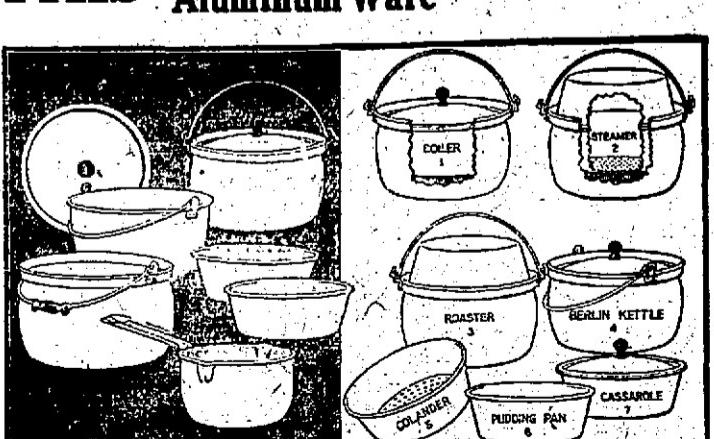

FOR ONE WEEK ONLY

October, 25th to 30th

S. L. HUNT

QUALITY STOVE STORE

HARDWARE

"Free" means that this ware does not cost Copper-Clad buyers a single penny. It is a reward for buying while the Crank is here and is offered by him to justify you in attending this sale.

This ware is very substantial and just the kind that you would select if buying for your own use. The 7-in-1 convertible cooker takes the place of seven different vessels, as shown by figures 1, 2, 3, 4, 5, 6 and 7. You can use this utensil in some form every day.

Free to every Copper-Clad buyer during this sale.
Come—See the Asbestos Sweat.
